7 x 6-3/8 x 1-5/8
House Box.
E-Flute Corrugate.
Ships flat.

*Film lamination is recommended on all corrugated projects, particularly those with
heavy ink coverage in order to prevent cracking. In the event clients choose to
proceed without lamination, the plant will not be held responsible for cracking that
occurs on non-laminated jobs.*

For convenience, boxes and mailers assemble without tape or glue and ship flat. Four color process is standard when using high quality offset printing onto a litho label that is then mounted to a corrugated board. Packaging jobs can have a white or kraft inside and have no restrictions on placement of artwork. Digital, short run solutions are available too.
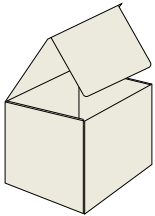

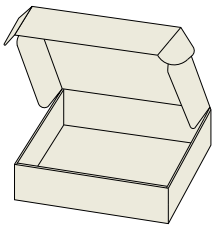

M-2010

4 x 4 x 4
Mug Box. All sides can be imprinted.
Copy must remain 1/4" away from scores and edges.
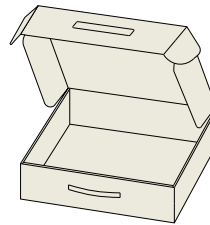

M-2012

12-1/8 x 9-1/4 x 3

Dozen Golf Ball Sleeve
Ships flat. 14 Pt. C/1/S.

Envision3 designs and manufactures folding cartons in many styles and sizes. Our design team will help you choose the correct substrate, size and configuration to support your product.

Commonly used styles include: straight and reverse tuck closures, auto bottom and two piece cartons. Consult your sales representative for samples and prototypes.
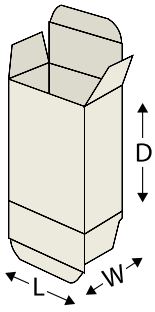

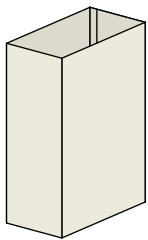

**MEASURE A FOLDING CARTON BY THE DIMENSIONS: L X W X D**

L-Length: The dimension across the box opening from left to right if box is facing you and the top facing up.

**W-Width:** The dimension from the front panel to the back panel.

D- Depth: The dimension from the top (opening side) to the bottom (opening side) showing how deep the carton is.
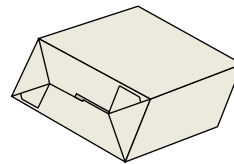

|				
Sleeve	Reverse Tuck	Straight Tuck	Auto Bottom	1-2-3 Bottom
Tuck & Tongue	Bellows (Gusset) Tuck	Full Overlap Seal End	Partial Overlap Seal	Simplex Tray

CUSTOM PACKAGING

IF YOU DREAM IT, WE CAN MAKE IT.

We design and manufacture a broad range of products that can bring a unique and lasting impact to your communication programs. Our custom packaging line-up can add impact, organization and performance. Our ability to custom design products to meet your most specified needs and store your most important products, provides you with an unlimited variety of creative solutions.

Our design and product development group will work with you every step of the way, helping you select the products that best meet your customer's creative and budget objectives. Because we utilize a CAD system, we can provide prototypes, enabling you to plan each project with greater precision.

As a leading innovator in the art of packaging, we are committed to excellence in every product we make. With all of our manufacturing resources in house, we maintain the highest standards of quality control, delivering every product with single-source reliability and convenience.

Example of a CAD Concept to 3-Dimensional Prototype

BETTER BEGINNINGS DESERVE BETTER FINISHINGS.

Foil Stamping, Embossing, Spot UV, Soft Touch Aqueous, Die Cutting…
A lost art? Not at all! We combine the craftsmanship and knowledge of our artisans with today's technology to produce some of the most stunning foil and embossing effects. Need help or suggestions on ways to enhance your next project? We're here to help you.

When your project calls for a custom die cut, we can help there too. Our engineering department can provide you with prototypes and electronic templates to help visualize the end product. Our most popular finishing options include:

- Foil Stamping
- Embossing/Debossing
- Custom Die-Cutting
- Spot/Overall UV Coating
- Gloss Varnish
- Dull Varnish
- Strike-Through
- Soft-Touch
- Aqueous Coating
- Gloss Lamination
- Matte Lamination
- PMS Colors
