ORDER INFORMATION

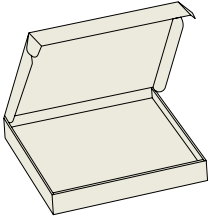

1. Select a product design from one of our many styles. Download Die-Line Templates at www.selectpkg.com
2. Select a stock. Most products can be produced on a variety of stocks. Choose one of our standard stocks or request pricing on special stocks.
3. Select a decoration process or combination of processes. Most products can be decorated using offset or digital printing. Check out page 21 for additional finishing options such as UV or foils.
4. Optional standard die cut slits are free of charge on all folders. Choose the business card, disk or literature slits of your choice. See page 12 for styles. Make sure to indicate the position on your purchase order.
5. Spine attachments can be stitched into the center of most folders. They are 14 pt. C1S white stock and come standard with (3) 3/4" fasteners and eyelets. Spine attachments require additional production time. Make sure to indicate if your order requires spine attachments on your purchase order.
6. Complete your order by calculating all applicable charges and issue a purchase order. Please fax or email your purchase order making sure to include all instructions and quote numbers. All orders require a written purchase order. We cannot accept verbal orders. All orders are subject to credit terms.
7. Send artwork. We accept electronic artwork only. It can be sent on a disk, via email or through our FTP site. Contact your sales rep for FTP credentials.

CORRUGATED GUIDELINES

One and two color prices are based on light ink coverage printing directly onto the box and have a white outside and Kraft inside. Artwork must be all line copy (no screens) and remain 1/4" away from scores and edges. Four color process is custom printed using high quality offset printing onto litho label that is then mounted to the corrugated board. Offset printing has no design restrictions.

FOLDING CARTONS

We design and manufacture folding cartons in many styles and sizes. Our design team will help you choose the correct substrate, size and configuration to hold your product.

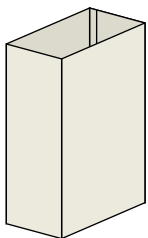

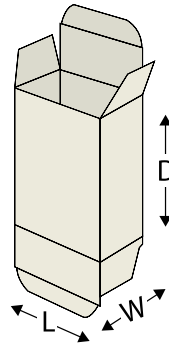

Commonly used styles include: straight and reverse tuck closures, auto bottom and two piece cartons. Consult your sales representative for samples and prototypes. Download Die-Line Templates at www.selectpkg.com

MEASURE A FOLDING CARTON BY THE DIMENSIONS: L X W X D

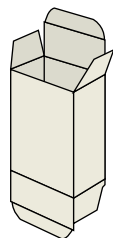

L-Length: The dimension across the box opening from left to right if box is facing you and the top facing up.

W-Width: The dimension from the front panel to the back panel.

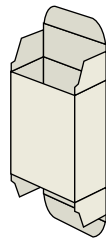

D-Depth: The dimension from the top (opening side) to the bottom (opening side) showing how deep the carton is.

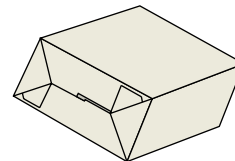

Sleeve

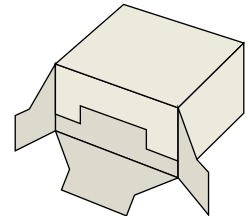

Reverse Tuck

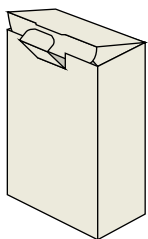

Straight Tuck

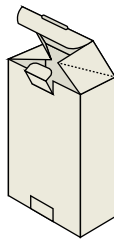

Auto Bottom

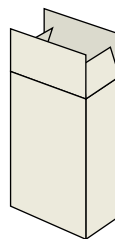

1-2-3 Bottom

Simplex Tray

EXPANDER PRODUCTS

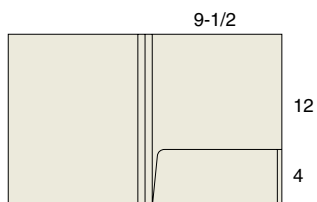

Our time tested Expander Products work hard to provide increased flexibility to those projects that require additional capacity. These products are proven to be extremely versatile and add increased value to your project.

The functionality of our Expander products allow for expansion while maintaining a clean and neat appearance. Our folders can easily hold up to 100 sheets of paper. Match a folder with one of our mailers for a complete presentation package. There are no additional costs for Expander products. Samples and custom sizes are available. Download Die-Line Templates at www.selectpkg.com
